

About This Project

Goal: to enhance road safety for pedestrians, cyclists and motorists while preserving neighbourhood livability in the Edmonds area.

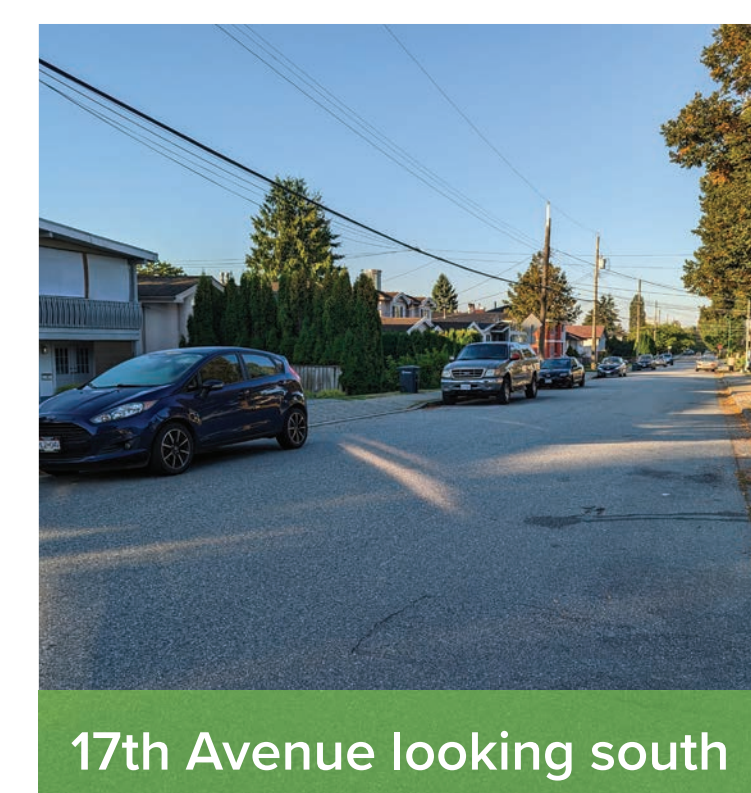

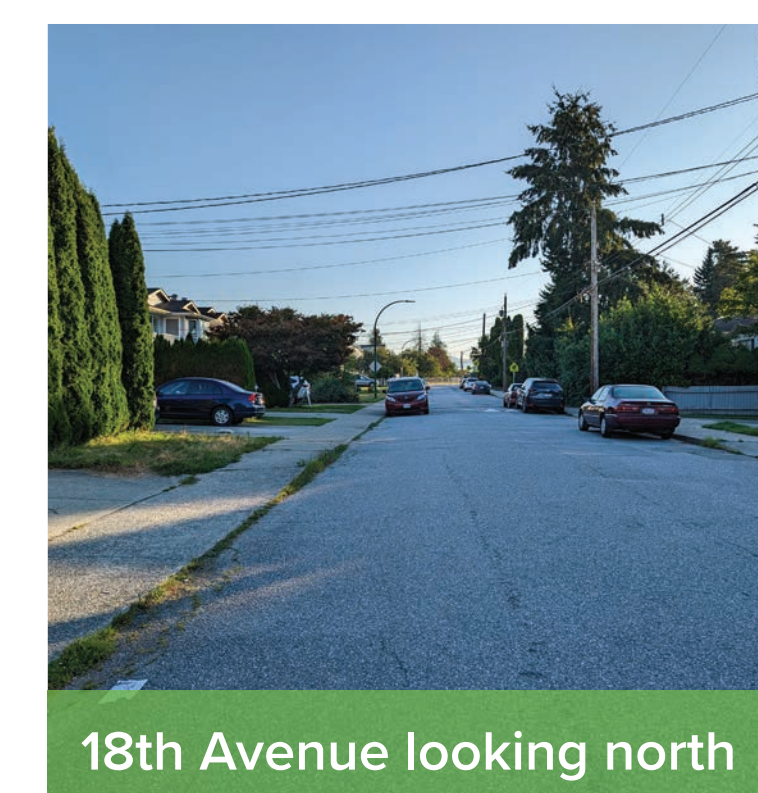

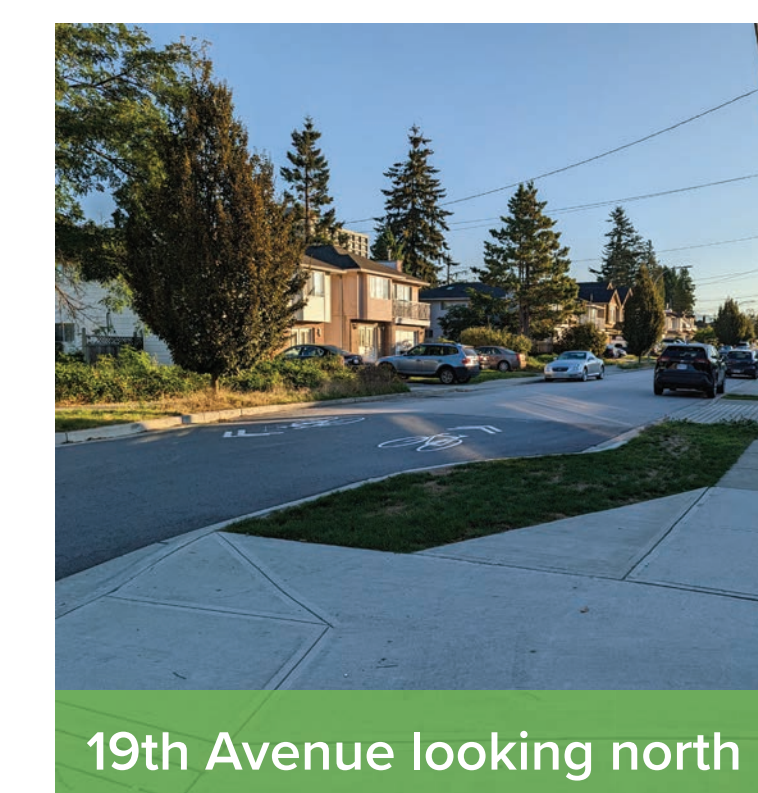

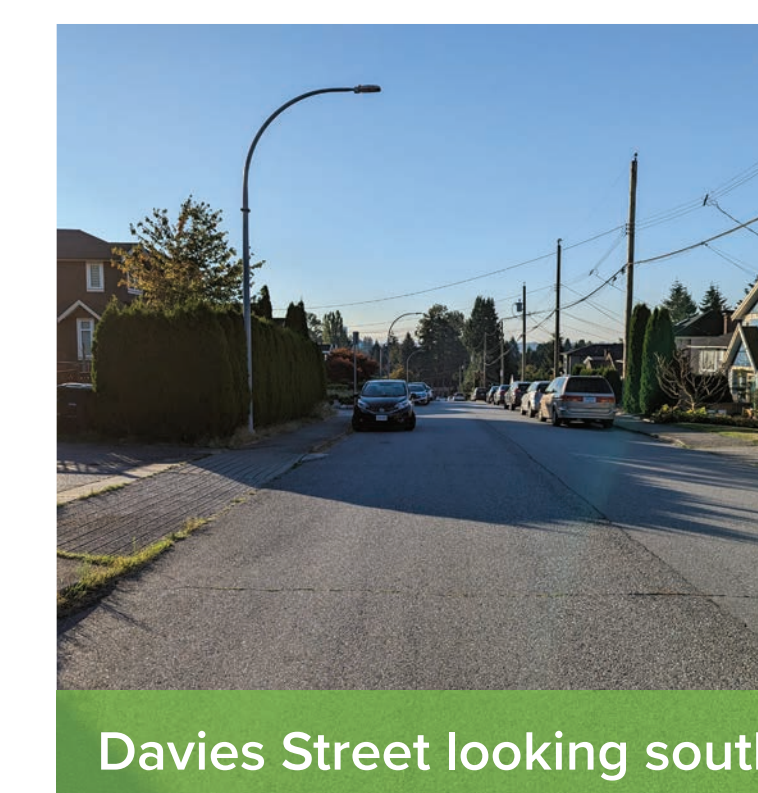

As sustained development growth continues in the city and across the region, local and regional traffic volumes have increased, posing access and operational challenges in residential neighbourhoods. The City of Burnaby is conducting a study to better understand speed and traffic concerns and identify potential improvements in the Edmonds study area.

This study is aligned with Council-adopted goals in *Connecting Burnaby: Burnaby's Transportation Plan (2021)* and coincides with significant cycling infrastructure upgrades in the area through the Edmonds Town Centre Cycling Network Project, which aims to create a connected and safe cycling network that is suitable for cyclists of all ages and abilities.

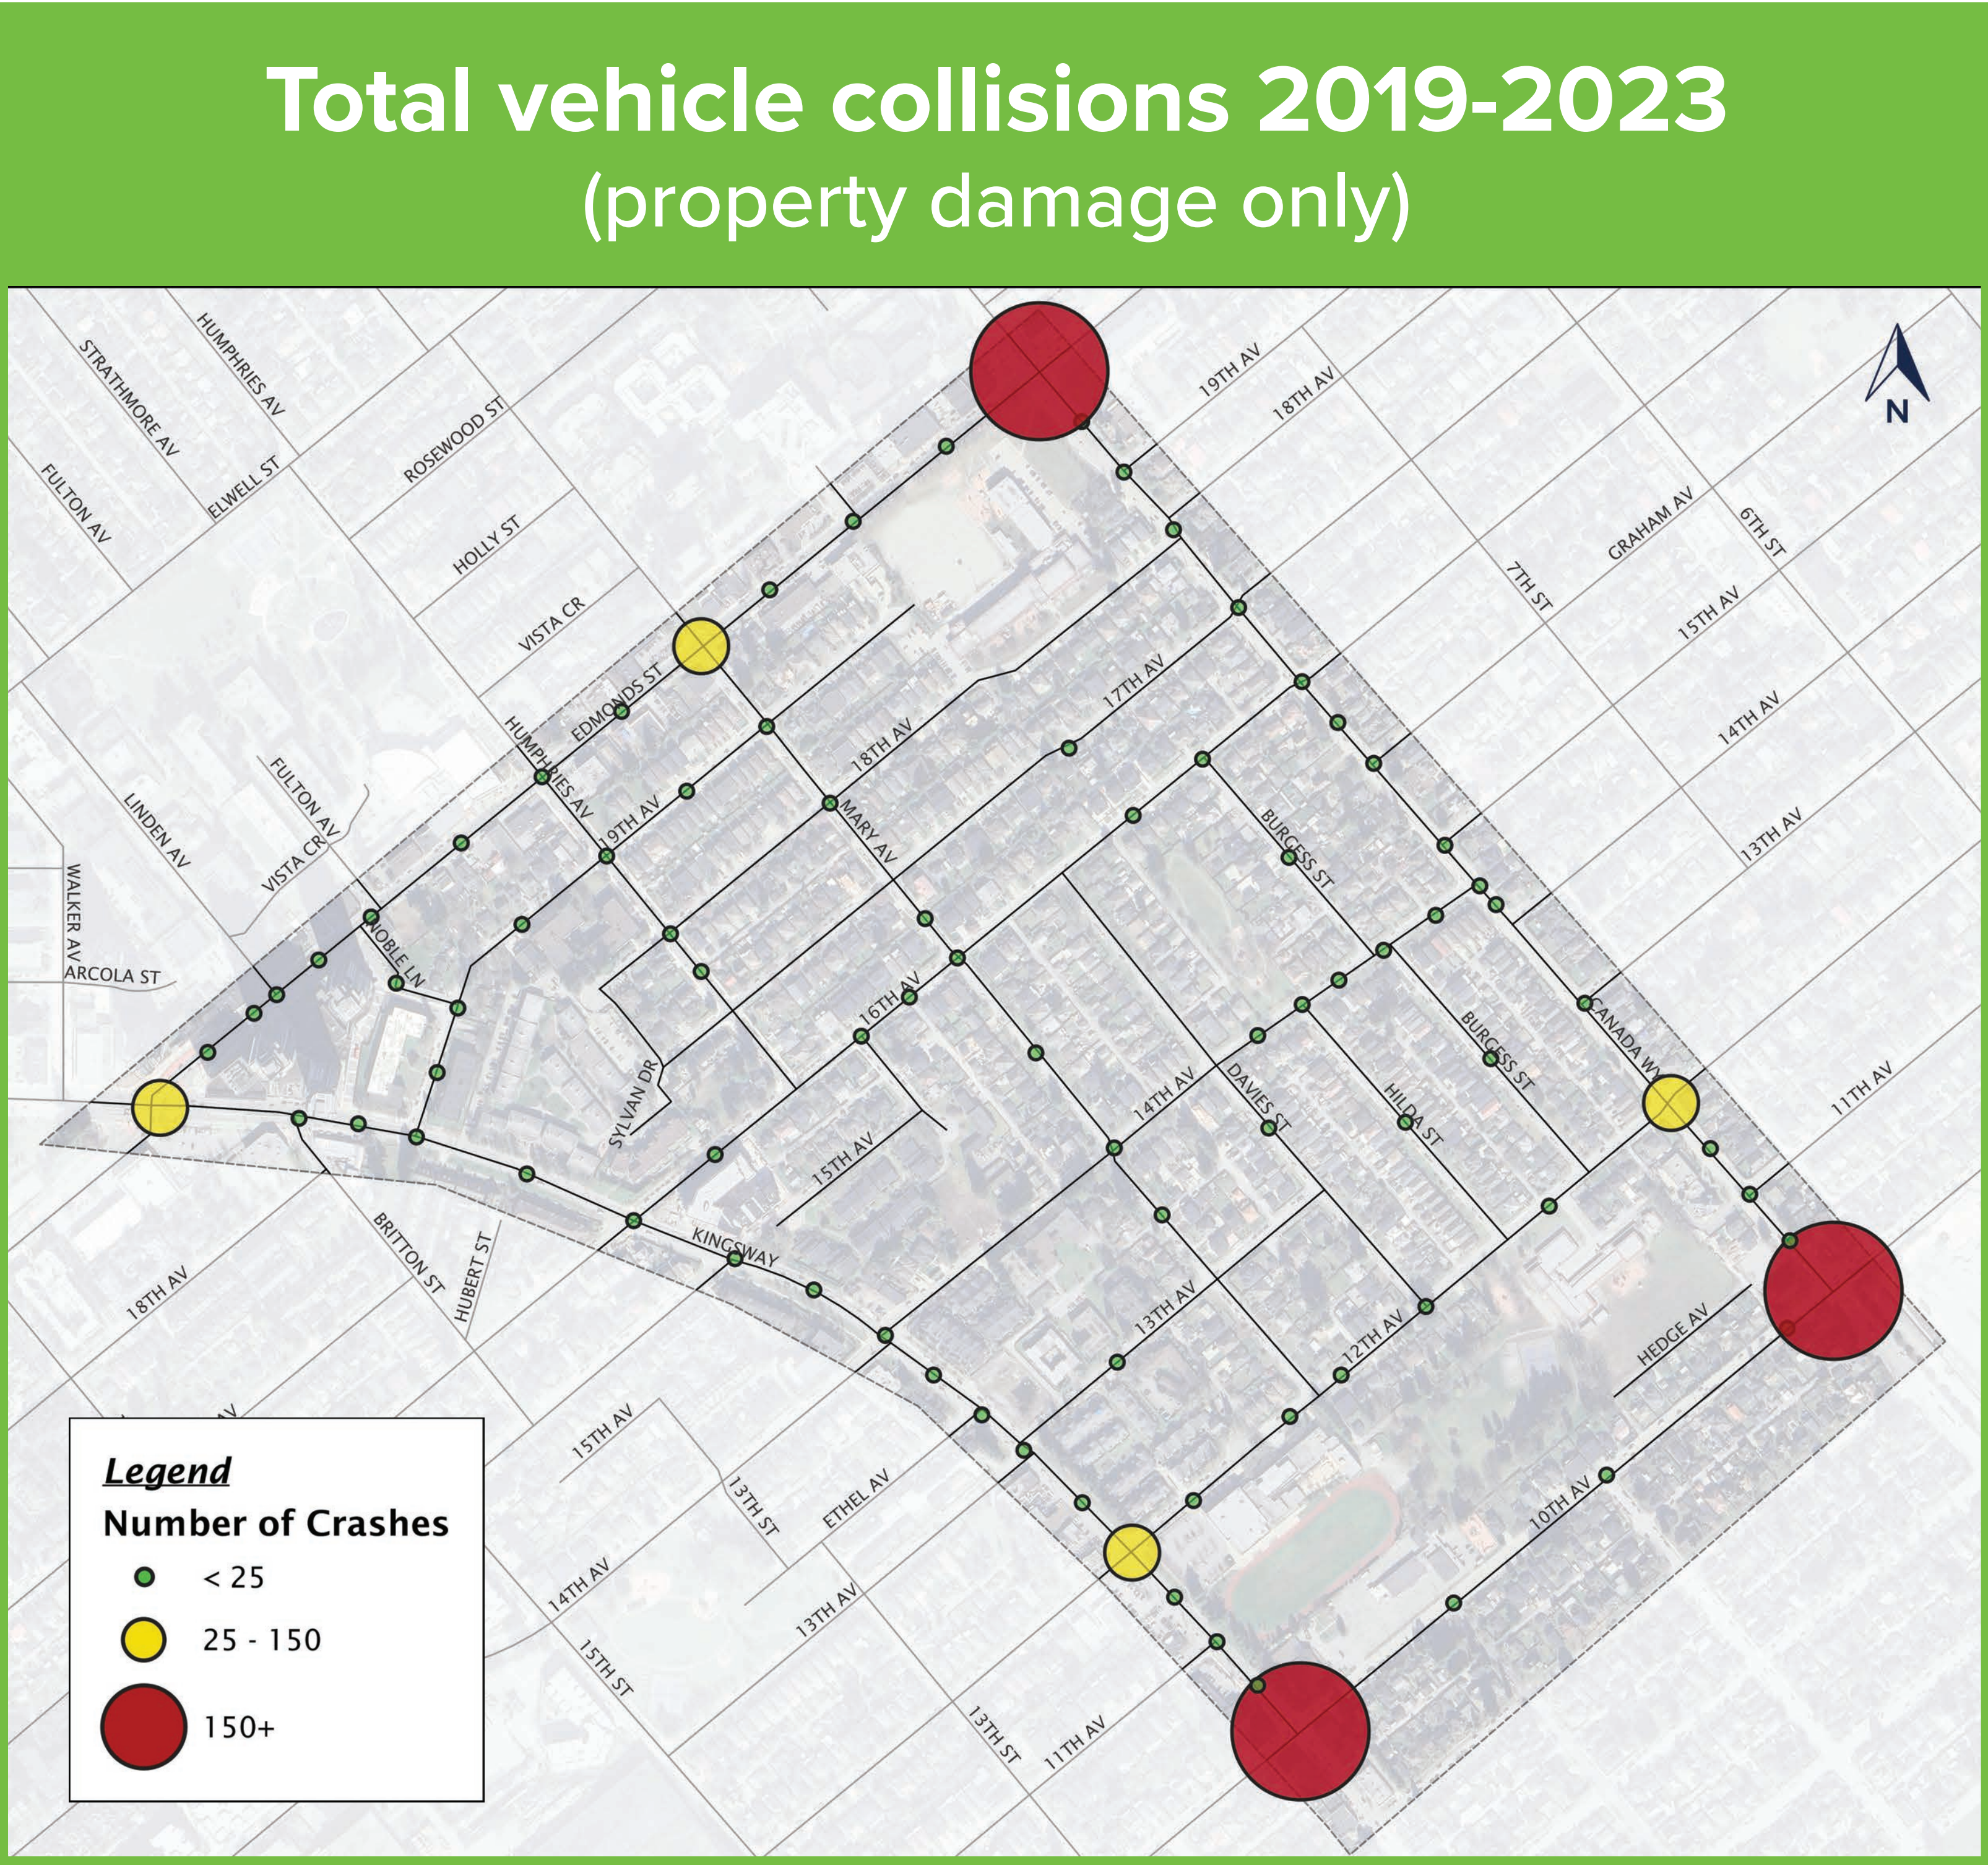

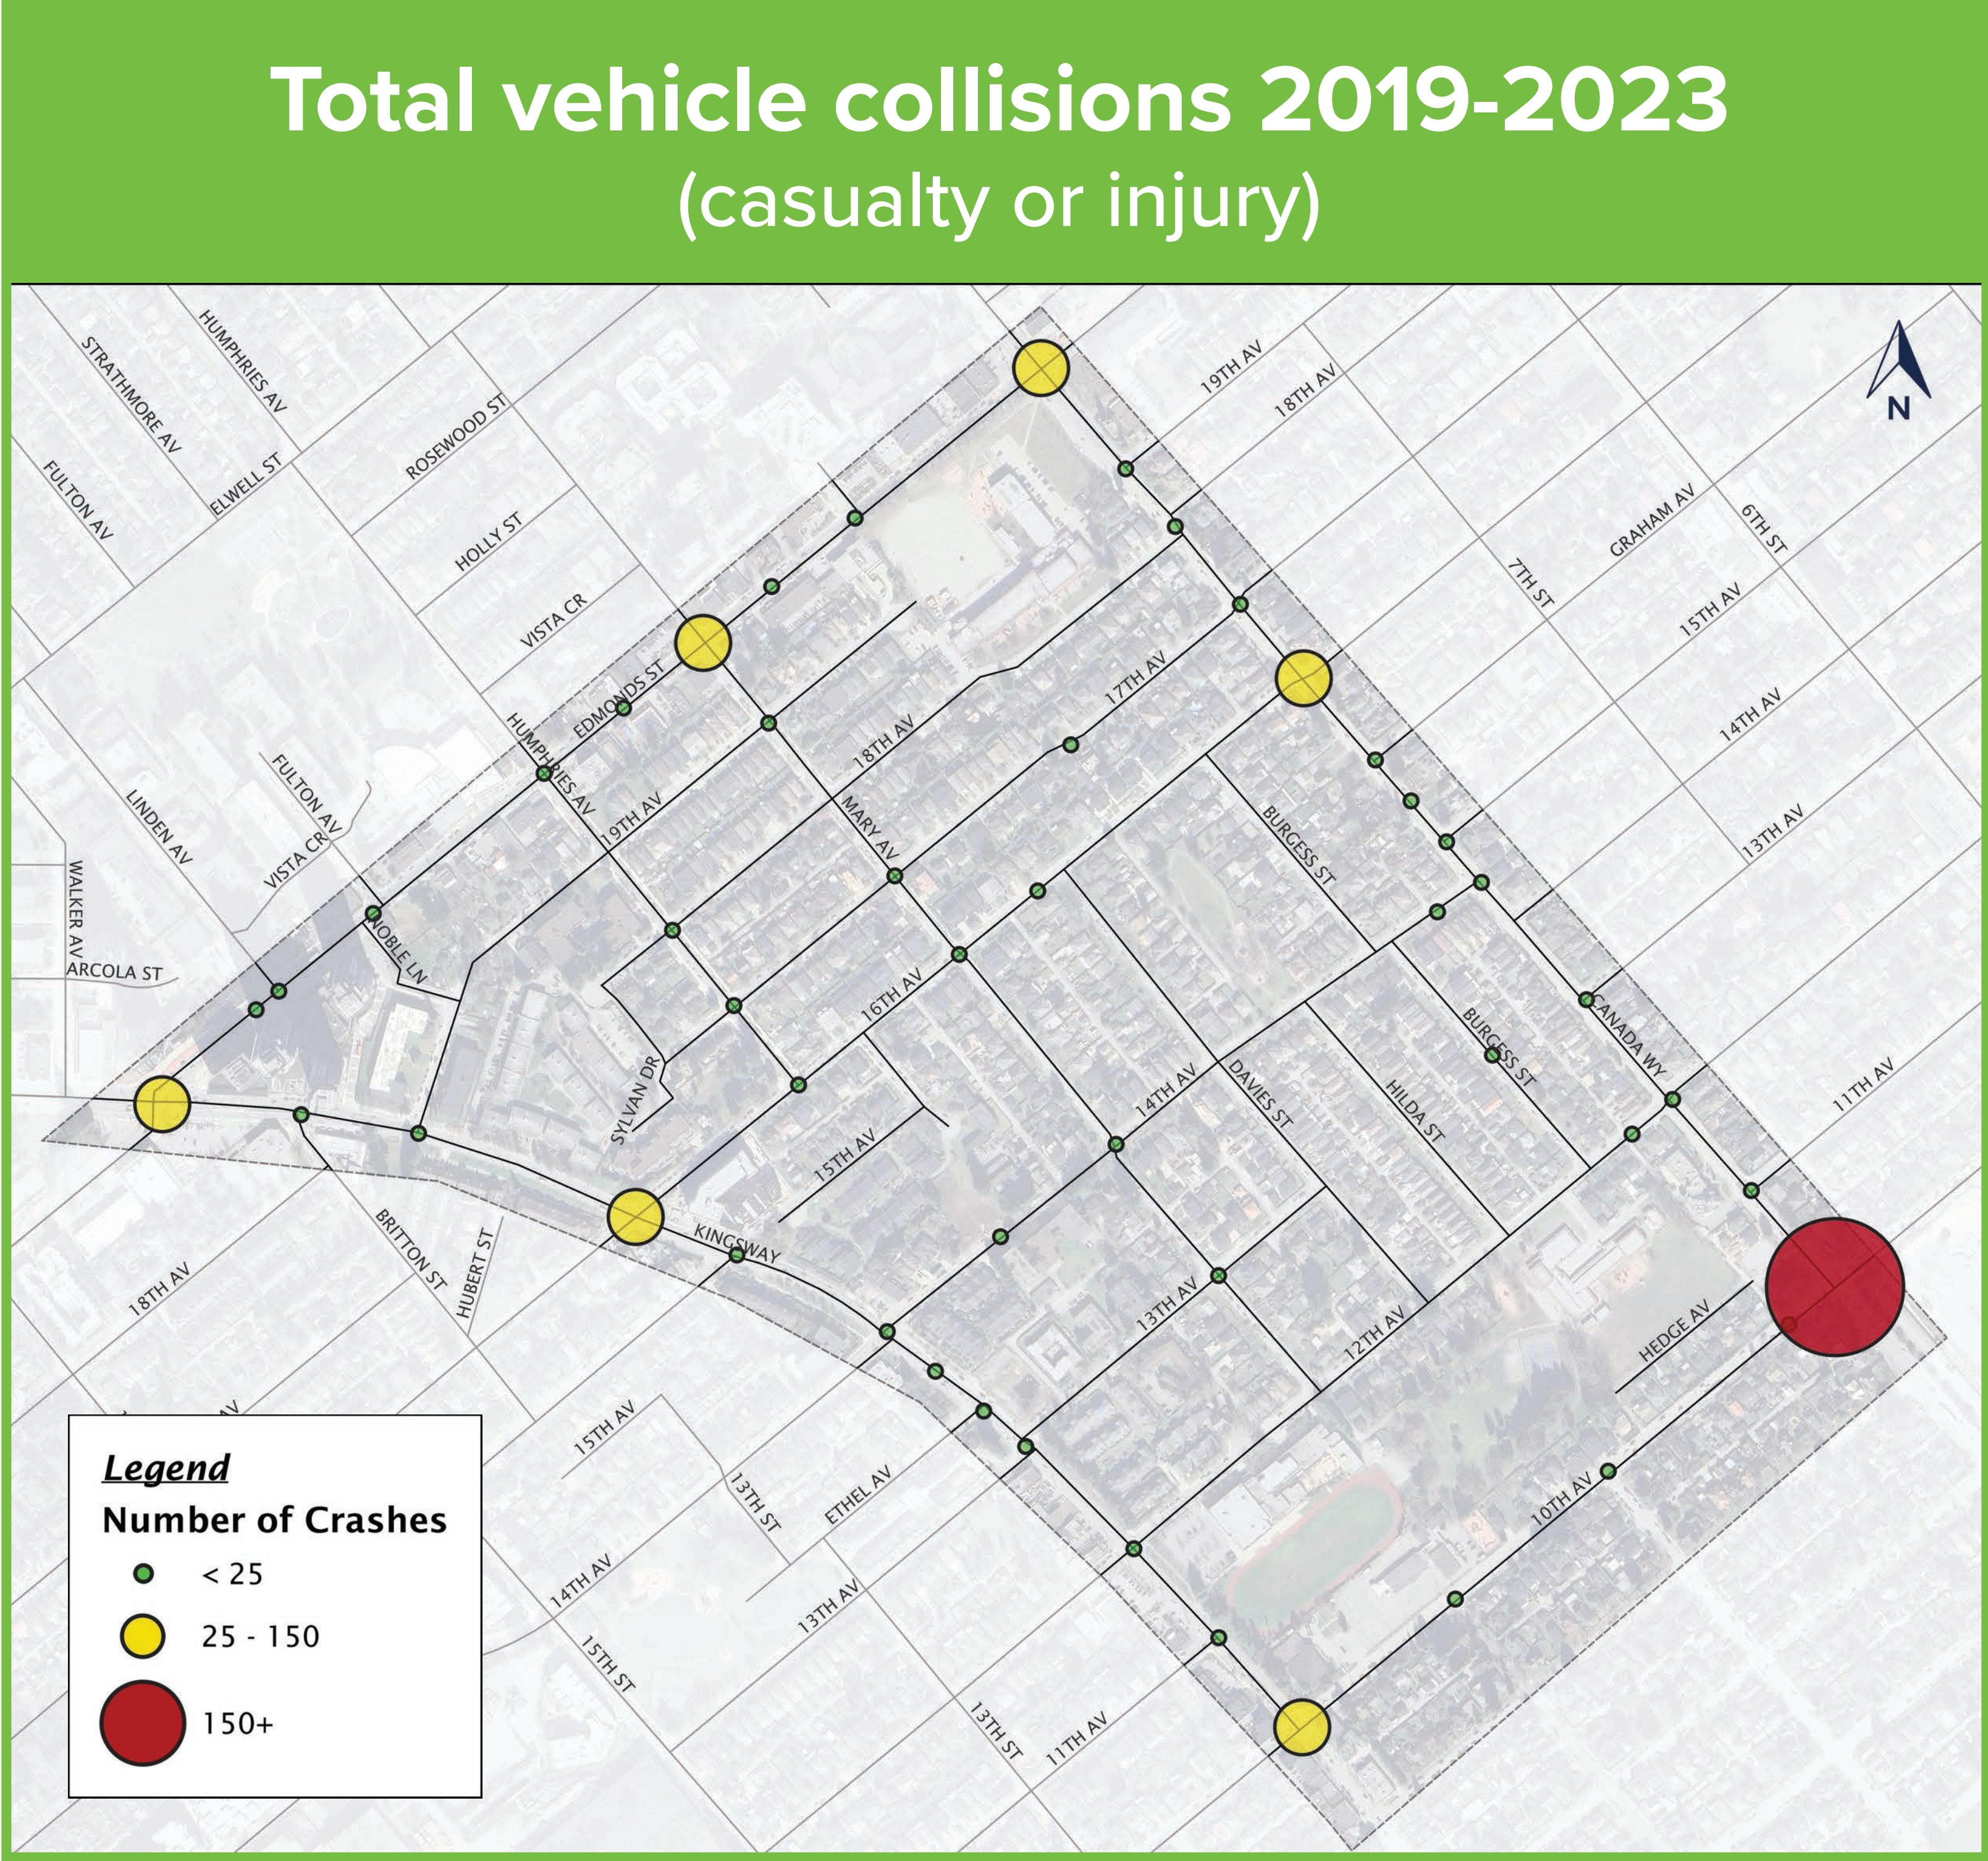

City of Burnaby is located on the ancestral and unceded homelands of the hən̓q̓əmi̓n̓əm and Skwxwú7mesh Sníchim speaking peoples. We are grateful for the opportunity to be on this territory.

Existing Conditions - Neighbourhood Overview

Existing Conditions - Neighbourhood Safety

Average speed observed on 16th Avenue, Mary Avenue and Burgess Street: 25-30 kilometres/hour

Existing Conditions - Neighbourhood Traffic Volumes

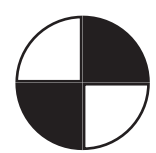

Fall 2022 traffic volumes

Data collected during the afternoon commuter peak period

Fall 2023 traffic volumes

(includes traffic diverter at Mary Avenue and 16th Avenue)

Traffic Diverter

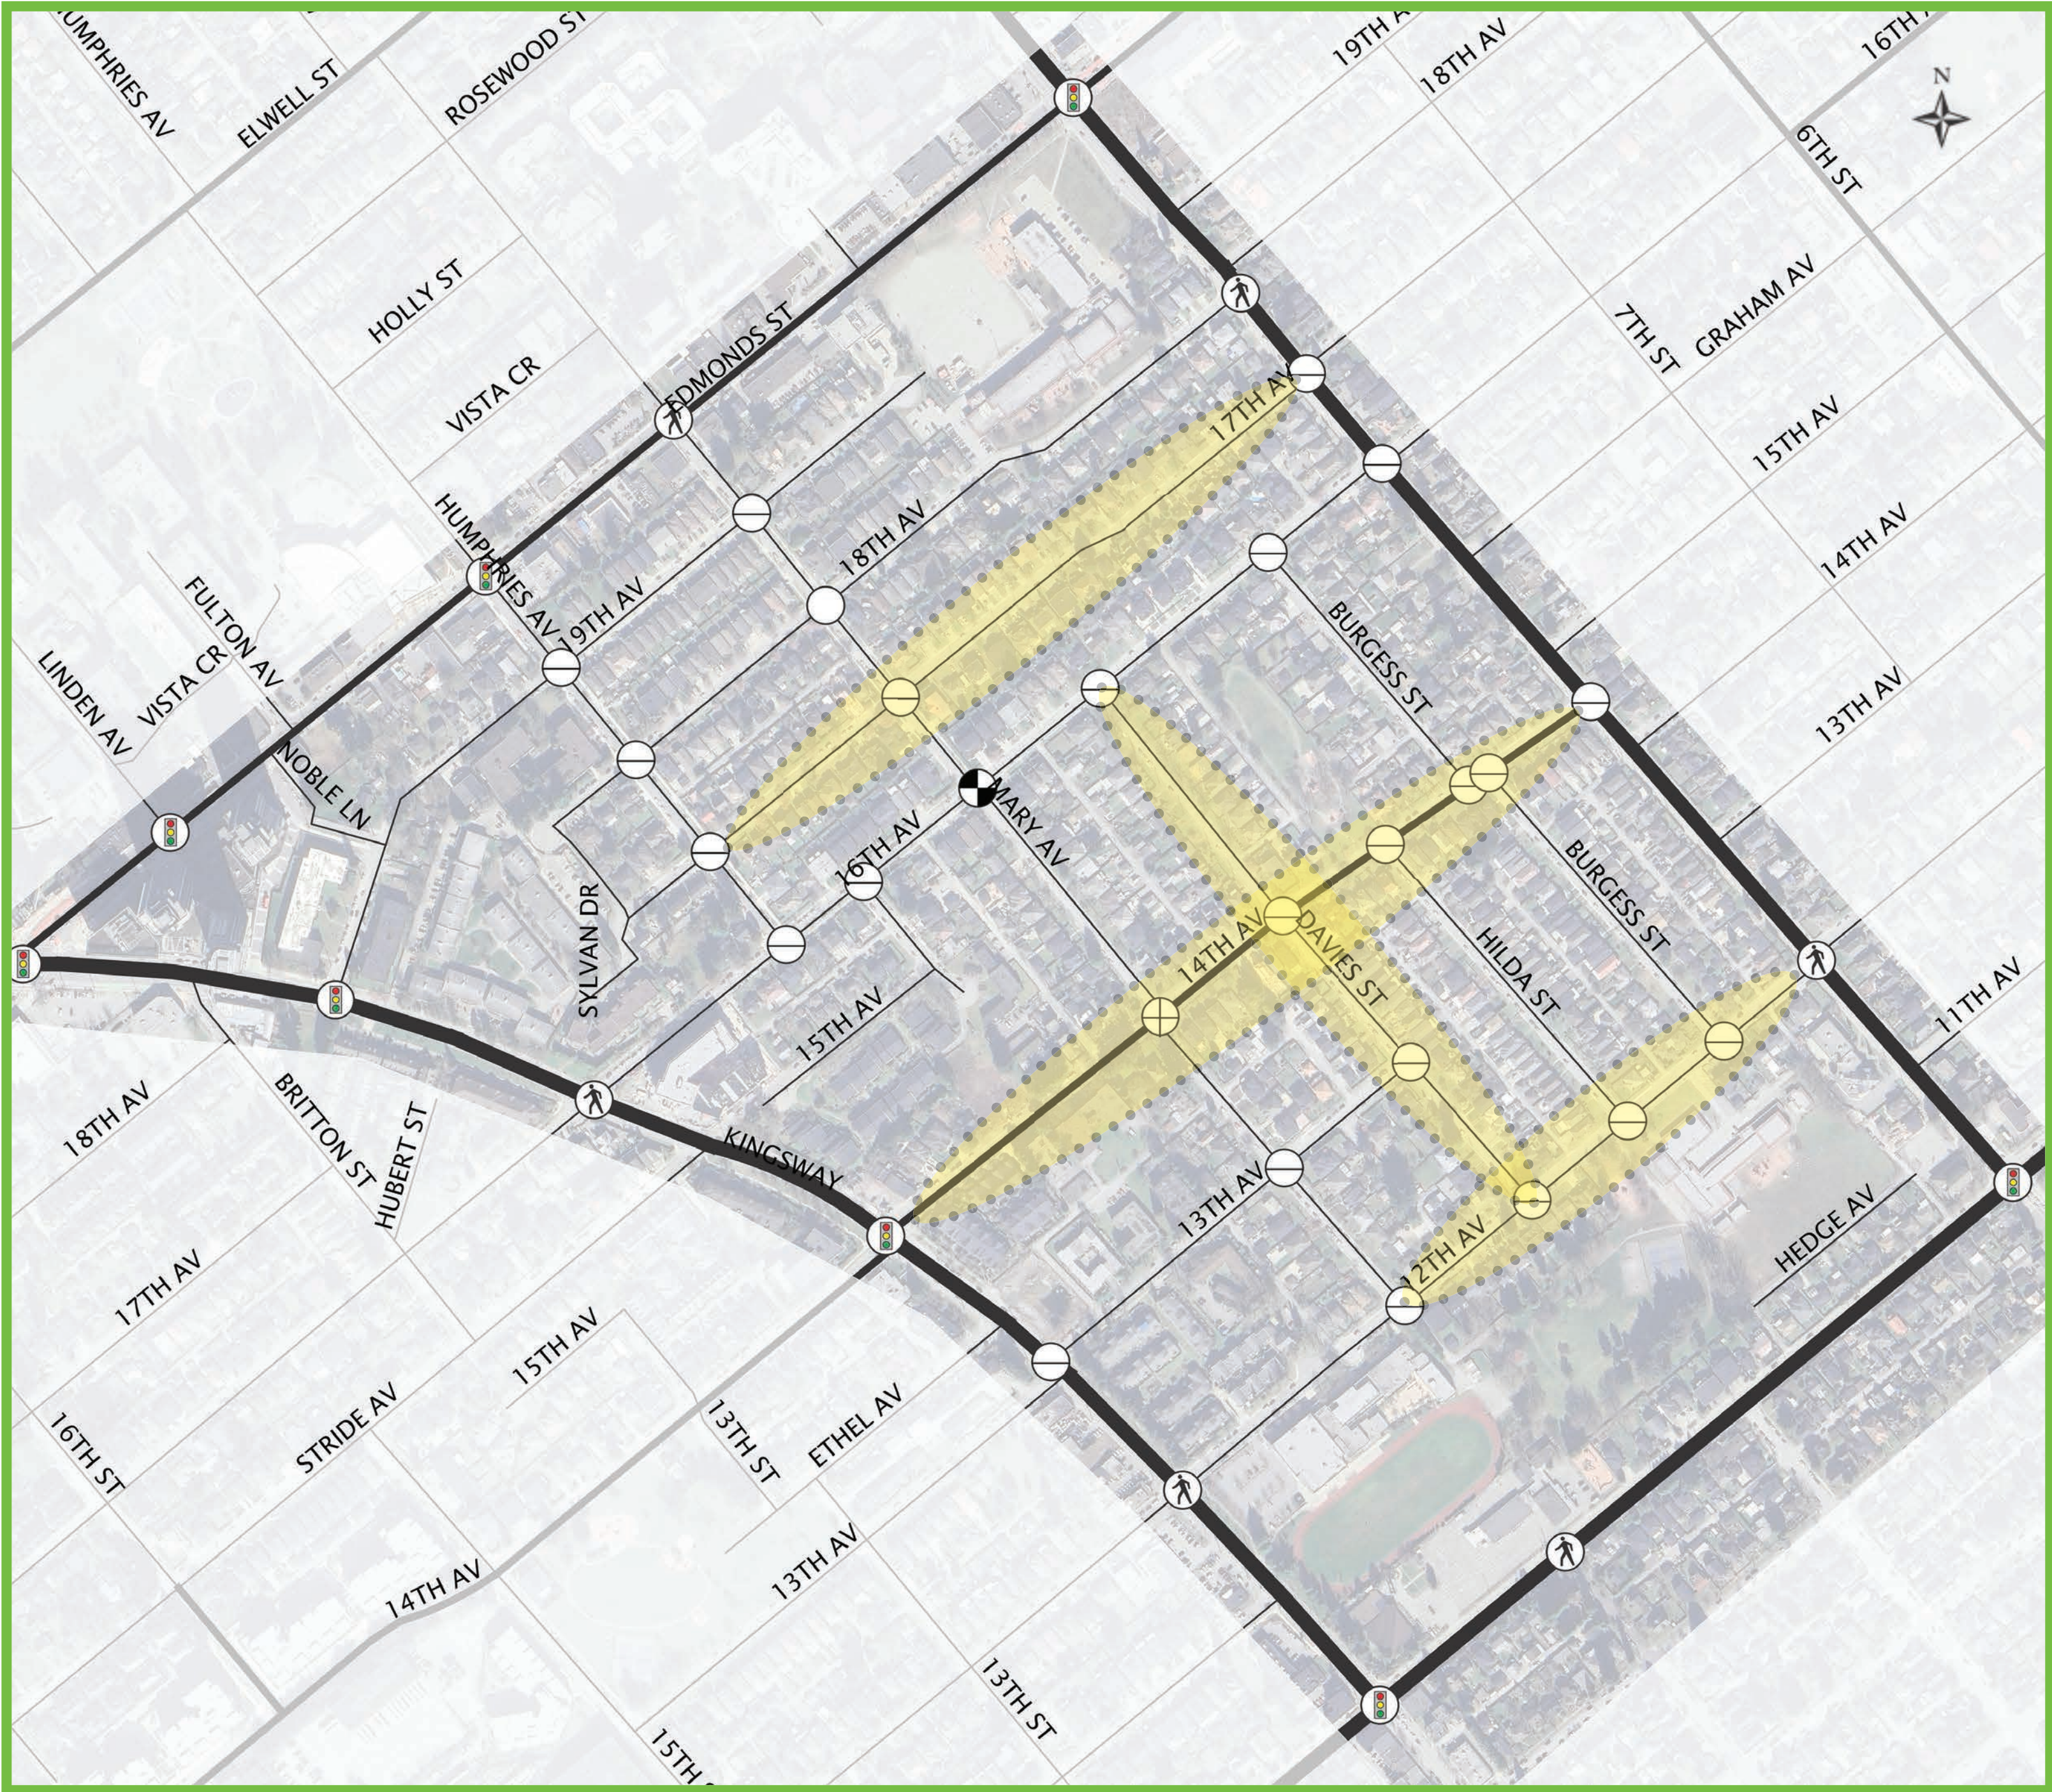

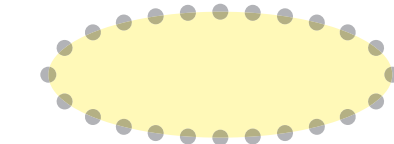

Decreased volumes

Increased volumes

Considerations - Speed and Traffic Management Measures

 Preliminary areas for consideration

Potential measures

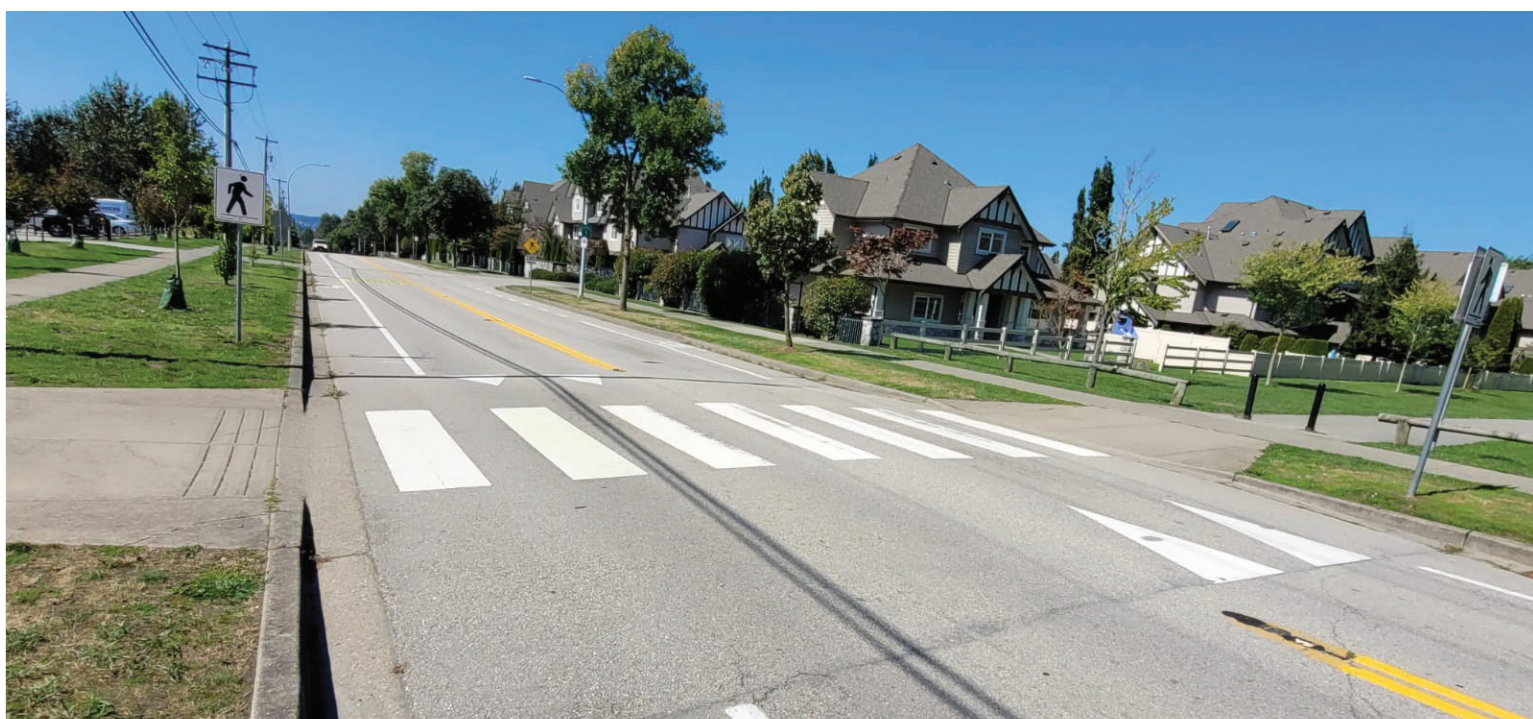

Speed hump

Curb extension

Traffic diverter

Raised crosswalk

Traffic circle

Chicane lane shift

Share Your Feedback With Us

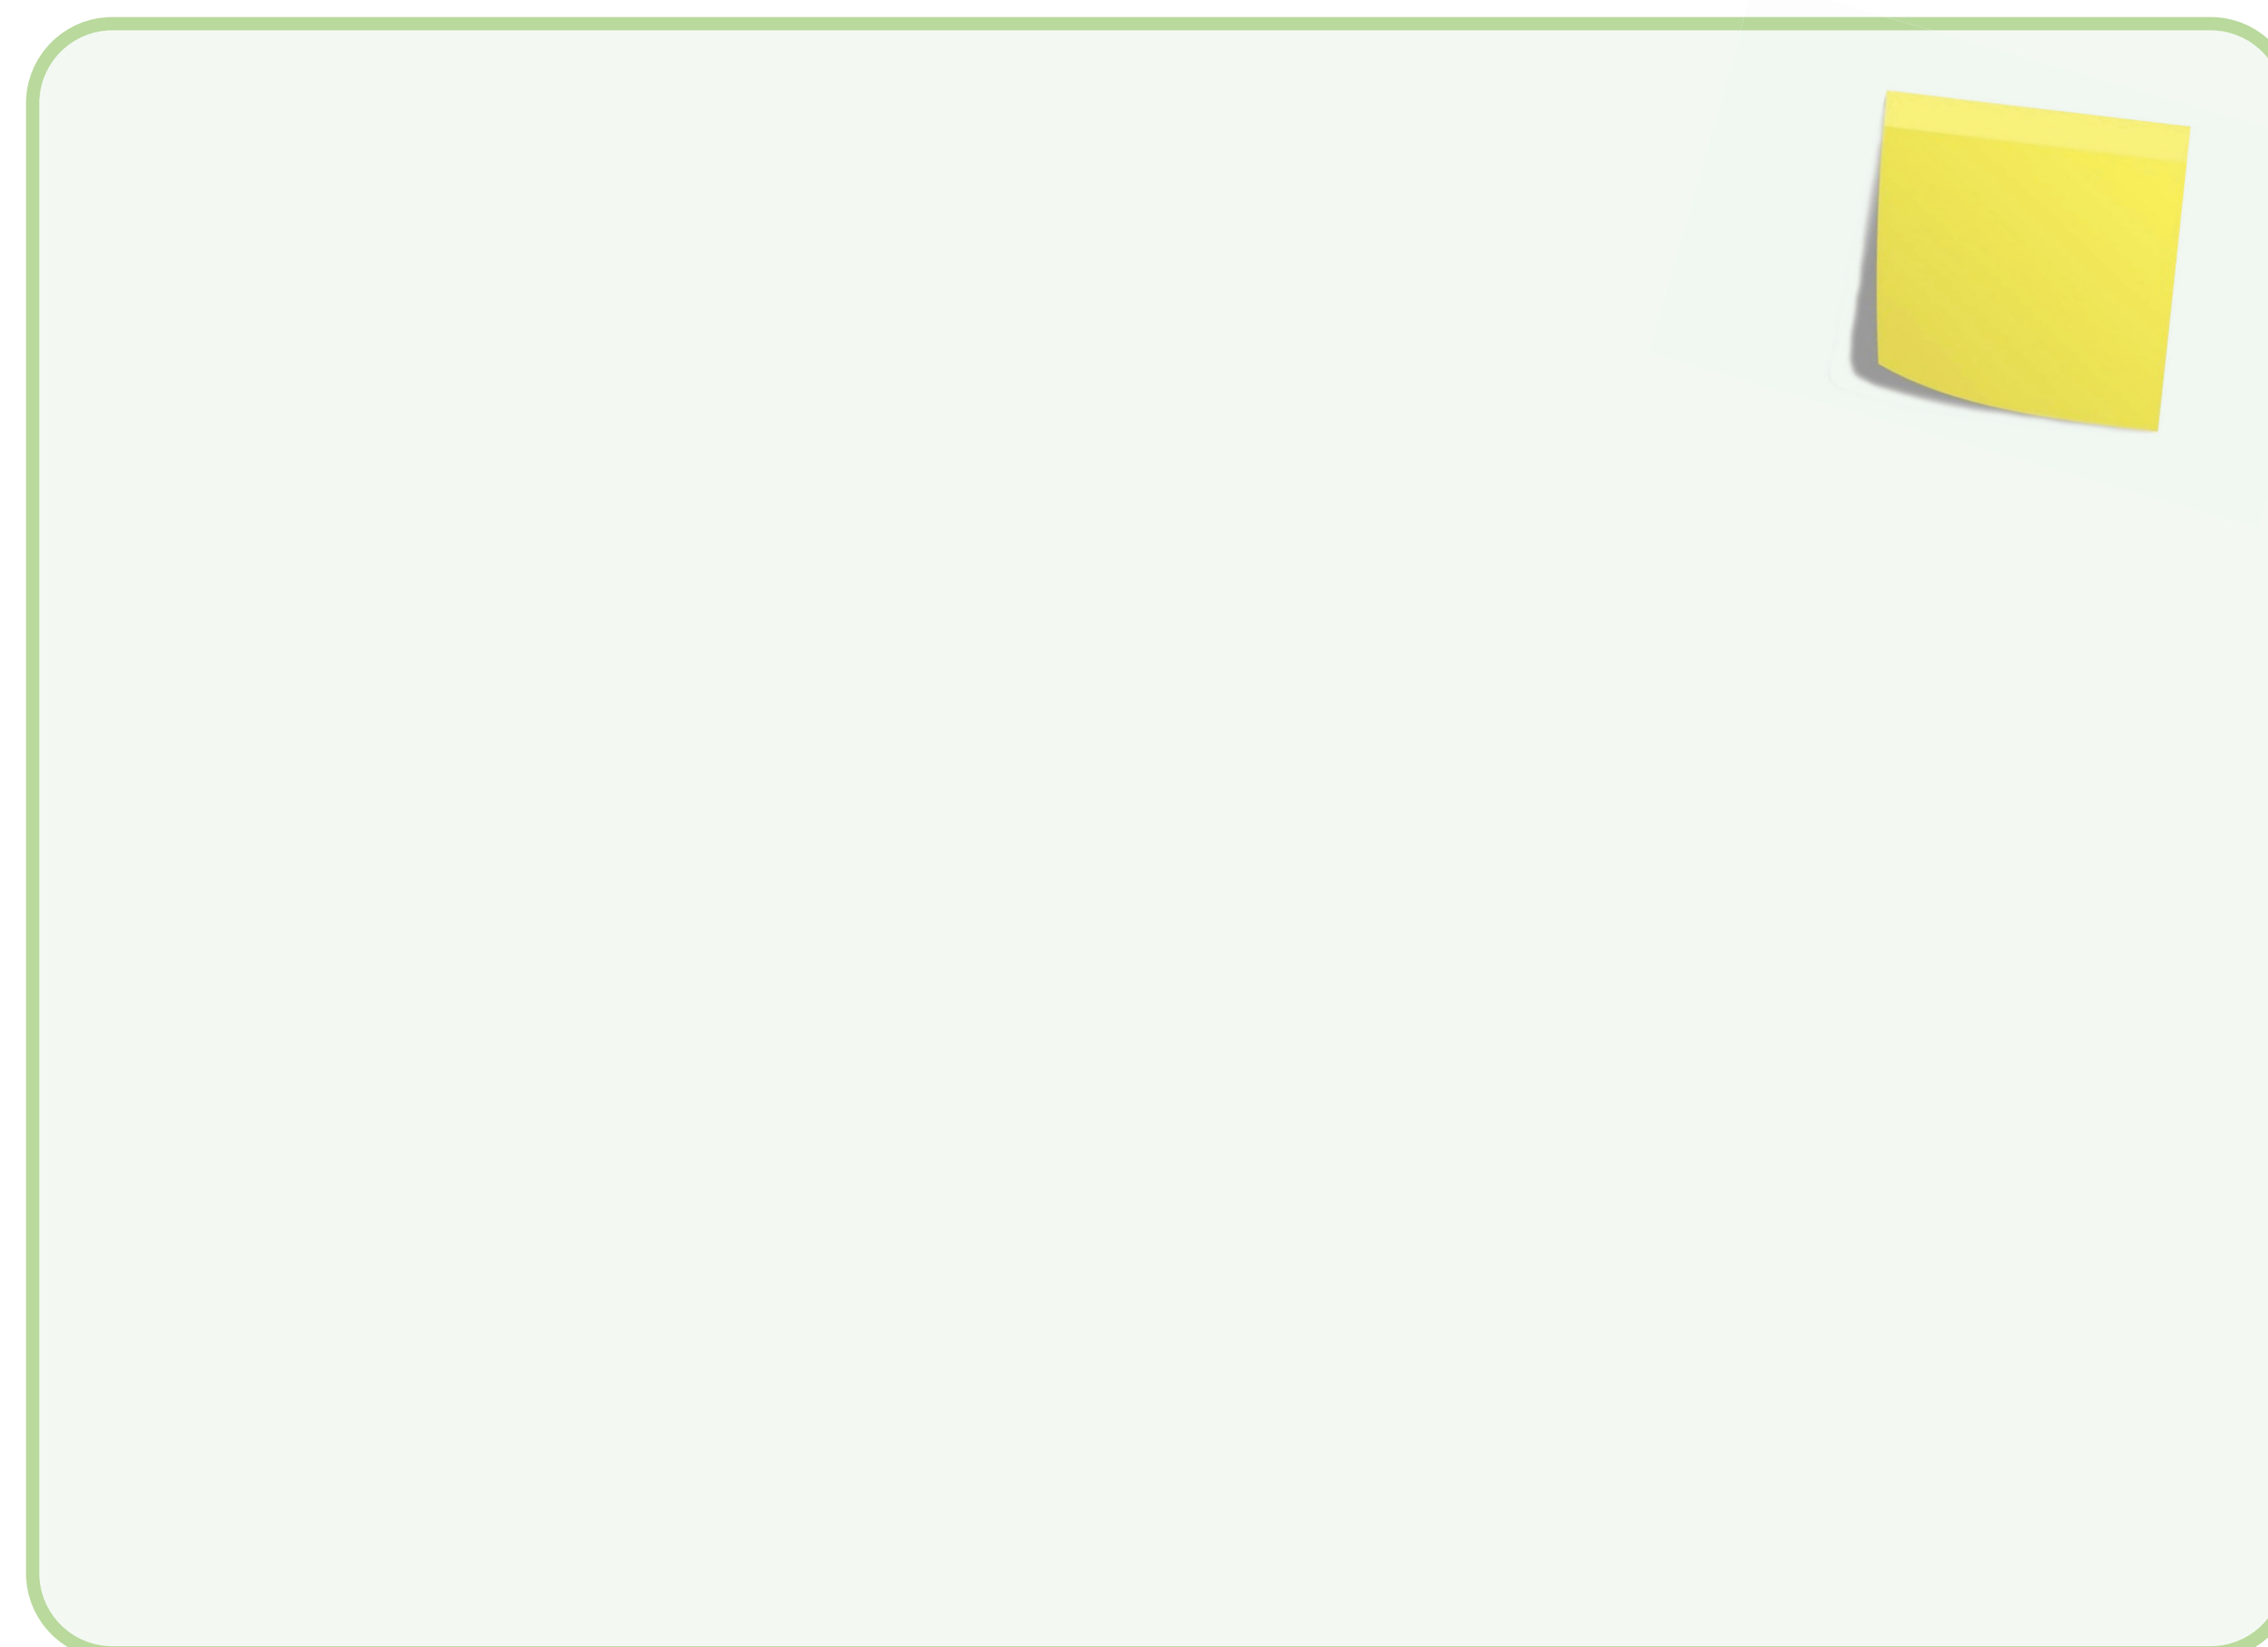

Let us know which areas you think could benefit from speed and traffic management measures.

Place a sticker on the map where you have experienced issues:

○ = speed related ○ = traffic/congestion ○ = other

Have a more general comment about speed and traffic?

Use a post-it note to provide any additional commentary you think may be helpful for our team.

Project Timeline and Phase 1 Survey

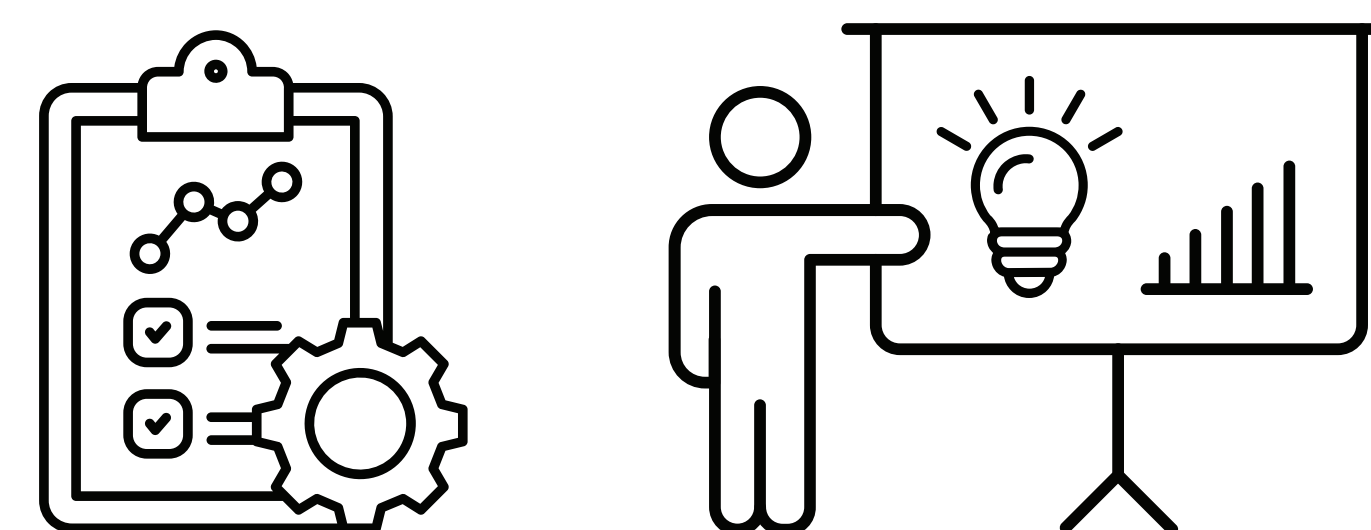

in progress

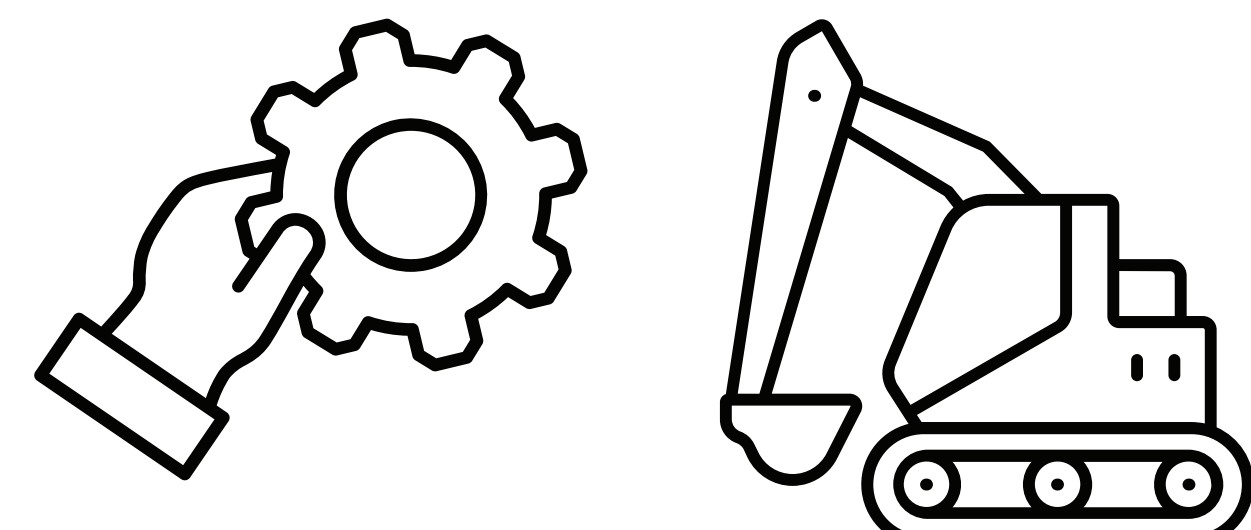

We are in the early stages of this project and are seeking feedback from the community as we identify areas to be considered for speed and traffic management measures.

A second public engagement opportunity will be available in Phase 2 where we will share our recommendations for speed and traffic management measures with you.

Implementation and construction of proposed mitigation measures is expected to start in 2025.

Please take our online survey at Burnaby.ca/EdmondsTraffic. Survey is open until October 1, 2024.
